

PRIVACY POLICY

YOUR PERSONAL INFORMATION: WHAT WE COLLECT, AND HOW WE USE IT

We do not collect personal information about you when you visit our website unless you choose to provide that information to us. If you do nothing during your visit but browse through our website, read pages, or download information, the web server will automatically gather and store certain information about your visit. This information does not identify you personally. We may use such information, or any information you do provide to monitor our website's performance, and to make improvements where necessary.

Information Stored Automatically

By default, all web server log files capture Internet Provider (IP) addresses. We may use your IP address internally to help diagnose problems with our server, administer our website, and to monitor network traffic to identify unauthorized attempts to upload or change information, or cause damage.

A cookie is a small amount of information sent from a web server to your computer. We use cookies when someone logs onto our website to maintain that login, to retain login information (if requested), and for the maintenance of other website features. Any activity you engage in while you are at the CERTEK (a division of DW Evans Electric, Inc.) website may be tracked. We do not use cookies to track your Internet activity before you enter or after you leave our website.

The Information You Provide

When you visit our website and decide to register for Newsletters, you are required to provide your name and email address to receive them. While visiting the website, should you decide to download a file, you will be asked for your name and email to start the download.

If you belong to a subscription program or any other program under CERTEK (a division of DW Evans Electric, Inc.), we may ask for information that identifies you as a program member.

When you place an order, you will be required to provide your name, email address, mailing address, contact number, payment card details, and/or other information (e.g. banking information for wire transfers, special delivery instructions, etc.). We may share selected information with our agents, sub-contractors (e.g. shipping company), and/or third parties (e.g. the issuer of your payment card or bank) for the sole purpose of delivering the product(s) you requested. At this time we use Square, Inc. to collect data for credit card payment processing for smaller products only.

When you participate in any promotion, we may ask for your name, address, email address, and/or other information so we can administer the promotion.

If you choose to provide us with personal information by sending an email to CERTEK (a division of DW Evans Electric, Inc.), or by filling out a form with your personal information and submitting it through our website, we may use that information to provide the information, service(s), and/or product(s) you have requested.

We do not collect personal information for other purposes. The information you provide is not released to any third party for commercial marketing, for gains, or for any other benefits without your

permission except where required by law to do so (such as in the investigation of fraud or other inappropriate activity).

EMAILS FROM CERTEK (A DIVISION OF DW EVANS ELECTRIC, INC.)

CERTEK (a division of DW Evans Electric, Inc.) has found that attractive, graphics-rich emails are a quick and effective way to inform our registered users and subscribers of new projects and events, and to provide them information concerning our services and products. We maintain an opt-out, user-customizable subscription database of users who have requested to receive these emails. Every email provides an option for you to unsubscribe to such information.

SECURITY

To make online visits at the CERTEK (a division of DW Evans Electric, Inc.) website a safe and secure experience, we use a Secure Sockets Layer (SSL) capable browser. This means that any credit/debit card information you send is encrypted by your computer, and then decrypted again on our server, making it extremely difficult for others to access your private information during transmission. (Until further notice, any payment information for credit card purchases are gathered over the telephone and entered through Square, Inc.)

While we will make reasonable efforts to store any personal information that we hold in a secure server or in secure files, and to keep this information accurate and up-to-date, the Internet is not a secure medium for the transmission of information. CERTEK (a division of DW Evans Electric, Inc.) cannot accept responsibility for the security of information you send to or receive from us over the Internet or for any unauthorized access to, or use of, that information.

Unauthorized attempts to upload information to, or change information on, our website are strictly prohibited and may be punishable by law.

LINKS TO OTHER WEBSITES

Our website may contain links to other websites. CERTEK (a division of DW Evans Electric, Inc.) is not responsible for the privacy policies or the content of these other websites. Should you choose to follow a link to another website, you are subject to its privacy policy.

VARIATION

CERTEK (a division of DW Evans Electric, Inc.) may amend this Privacy Policy from time to time. We encourage you to visit our website regularly to stay updated of these changes.
